Check out the blog from one of our columnists.

We wanted to take some time out to recognize the blog of one of our freelancer writers, Jim Hingst. He is a sign maker who represents both the old and new sides of the industry.

His blog, [Hingst's Sign Post](#), is an expansion of his column in our magazine. He covers everything from woodcarving and gold leaf techniques to screen and digital printing applications.

Here are just some of the topics you can learn more about by visiting his blog:

- Ladder & scaffold safety:
